microMattebox CLAMP-ON ADAPTER

Support Bracket

microMattebox clamp-on Adapter

2-56 screws (x 11)

6-32 screws (x 2)
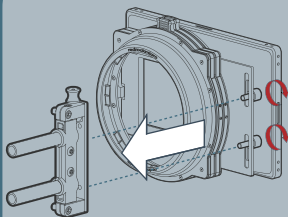

This guide details installation of the clamp-on adapter to your current Redrock microMattebox. See additonal guide for Clamp-On user instructions.

## 1 REMOVE SWING-AWAY PORTION OF YOUR MATTE BOX

A

Loosen the two thumbscrews fully to remove your matte box's hinge assembly.

B

Remove stock lens adapter from the back of the matte box. Save screws for later use (optional)
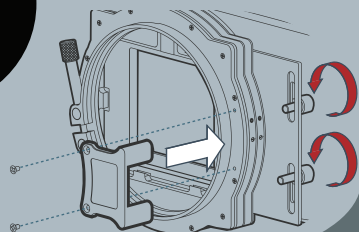

2 INSTALL CLAMP-ON ADAPTER

Use provided 2-56 screws to install Clamp-on Adapter to your matte box. Make sure the adapter is oriented as shown.

3 INSTALL BRACKET

Install bracket using two 6-32 screws. Secure bracket to matte box frame by tightening existing thumbscrews. The bracket is optional but it prevents your mattebox from unexpected rotation.
